

Sampling Distribution of  $E(\log(Y \mid X = 20))$   
(Expected values on log scale)

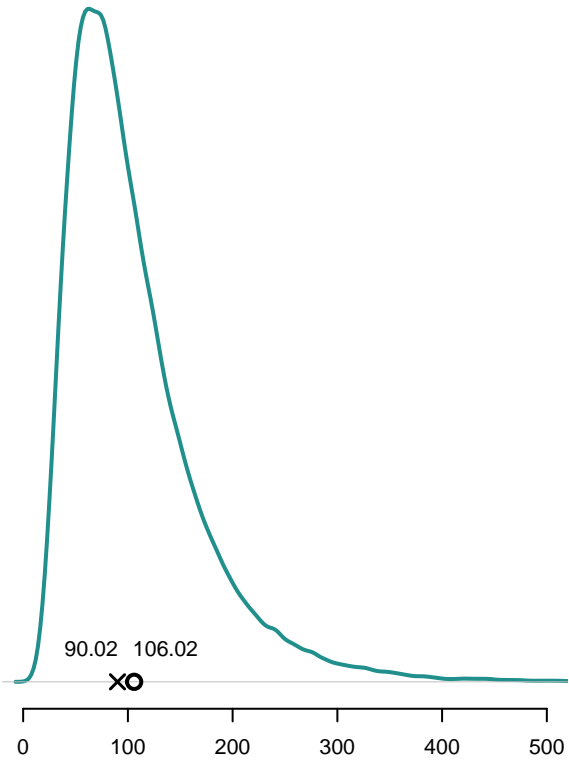

Distribution of  $\log(Y \mid X = 20)$   
(Predicted values on log scale)

Distribution of  $Y \mid X = 20$   
(Predicted values on original scale)

Sampling Distribution of  $\text{median}(Y \mid X = 20)$   
(Median values on original scale)

Sampling Distribution of  $E(Y \mid X = 20)$   
(Expected values on original scale)
